5 - I am super grateful for Charlotte's time this semester. She always goes beyond simply answering questions to make sure we actually internalized concepts, instead of blindly following formulas or methodologies mentioned in lecture. The depth to which she explains topics is what made problem solving in this class so much easier for me. It's refreshing to have someone as passionate as she in a teaching position. Thanks for a great semester!

5 - She was great and had a great attitude! Even if she made a mistake she'd explain where her mistake came from so we would learn from it.

5 - Charlotte was very good at organizing the class to our liking. It was not just an "I teach and you watch" kind of recitation. She presented us with the problems and allowed us to work in groups (usually of our own choosing). Under normal circumstances, I can understand that it can be beneficial to work with new people in-person. But I think choosing our own partners was best on zoom (she figured this out after a few recitations) because we are more comfortable speaking out loud when we work with the same people each week.

5 - She's very knowledgeable.

4 - gave us a lot of freedom to do the work on our own but was typically accessible and helpful when we asked for guidance

4 - N/A

5 - The TA was always encouraging us to communicate our answers and thoughts with each other.

4 - My TA's teaching ability is clear and helpful.

3 - I did not appreciate her manner in the class (I was afraid to talk in class because she was not kind to you when the answer was unknown and you guessed incorrectly). She was accessible outside of class to ask more questions but I do not think I would go to her with more questions for fear of being ridiculed for not knowing the answer. Would not take another workshop with her ever again.

2 - I feel that the TA should be more active.
